

Course Title: Cursos de Inmersión en Lengua Inglesa - Social Sciences

Level: C1-C2

Duration: 40 hours (class time)

Student profile:

This course is for students who have a special interest or need to improve their English language knowledge with a special focus on social sciences (The course is especially designed for those exploring the possibility to move into an academic or professional field where a social sciences background would be a requirement).

Course Objectives:

- To improve oral fluency and comprehension.
- To improve on such essential communication skills as debating, discussing, presenting, and reasoning based on topics from social sciences.
- To consolidate and learn vocabulary related to various aspects of social sciences and forms of talking about and describing these topics.
- To consolidate and reinforce existing vocabulary and structures through practical application of the language with a focus on participative communication.
- To allow the student to acquire confidence to speak in public in a variety of settings using specific English.
- To learn about and discuss cultural and social issues in the target language.
- To study and, in some cases, practice the writing skills needed for academic and professional application within this field.

Topics:

Anthropology, international meetings, politics and International administration, presenting and speaking, interviewing and fact finding, business administration, writing skills.

Grammatical content:

Grammar structures will be practiced during the course through practical application. Specifically needed language structures will be incorporated into the topics.

Methodology:

The methodology used is the communicative approach with a very strong emphasis on total participation. Students will be encouraged to actively participate at all stages of the course to maximize their oral use of the language.

New language and structures are taught through elicitation and the use of the language in context. Students are then helped to assimilate these new elements through natural practice (both teacher led and free practice activities).
